Projects

MyHomeDuctCleaners.com

Developed a user-friendly WordPress site for My Home Duct Cleaners, highlighting services, easy navigation, and responsive design. Enhanced SEO and integrated contact forms to drive inquiries and improve user engagement.

MMPrintingAndPackagingServices

Developed a WordPress site using Elementor to display services and enable easy client contact.

Liorae

This is an e-commerce app built with React, Zustand for state management, and Tailwind CSS for styling. It features a clean, modern design and allows users to browse and shop products seamlessly. The app's structure ensures a smooth user experience, leveraging powerful tools for efficient state management and responsive design.

Klimate

A Klimate application built with React, Zustand, Tailwind CSS and ShadCN UI allowing users to search any country or city's real-time weather data. The app features a favorites system, dark/light mode toggle, and pulls weather information from the OpenWeather API. It offers an intuitive user experience, with smooth transitions and responsive design, showcasing modern web development practices.
